

**NOTICE**  
**PITCHING SCREEN RULE**

1. A batted ball striking the pitcher's screen shall be deemed a dead ball. If the courtesy has already been used, the ball will be dead and the batter will be called out. If the batter hits the screen twice in the same bat, he/she will be called out. Hitting the pitching screen more than twice in the same game will result in an automatic out for that participant.
2. 3/2 count with a courtesy foul ball will be in effect.
3. The pitcher is responsible for positioning the screen; right-handed pitcher must pitch from the third base side of the screen and left-handers from the first base side. The screen is to remain upright at all times. A batter may not alternate batting position once he/she has established the batting position.
4. Pitching screen must be placed in front of the pitcher's plate, with the brace in the middle of the pitcher's plate, touching the plate.
5. Once the screen is set it can't be touched by any participant.
6. On defense the screen is part of the field and the ball is live. The screen may not be touched by any participant and must remain upright.
7. The pitching screen includes any and all parts; frame, tires, etc.
8. No tampering with the pitching screen.
